

***This is a proud moment for me to pen a few words about ABIDAT. Hi, I am San Noela R.L.!***

***I pursued my PGCDs Program from ABIDAT in the year 2022-23. I proudly feel that I cherished every moment. I was little nervous while joining, but I had supportive faculty members, beautiful campus, quality education and amazing friends.***

***Studying in ABIDAT brought an added value to my life, it gave me an opportunity to meet different kinds of people and to learn a number of things.***

***Also, I am happy to announce that I have been accepted into Ben Gurion University in Israel under the supervision of Prof. Naomi Tel Zur. She is a specialist in the field of Cytogenetics and Plant Reproduction, and she's the perfect fit for my research interest. I am excited to work with her and learn more about the field.***

***I hope to gain a deeper understanding of the genetic mechanisms behind plant reproduction and use that knowledge to make a positive impact on the world.***

***Thank you to everyone who supported me along the way!***
